

SANDBOX *Are We There Yet?*

1. Pajama Party

We're gonna have a pajama party
We're gonna stay up late tonight
We're gonna have a pajama party
And we're sure gonna do it right

Pajama party
It's a pajama party
Pajama party
It's a pajama party

Build a fort out of sofa cushions
And we won't let anyone in
We'll hang up a sign that says
"If you can read this, don't come in"

We might watch a scary movie
about when monsters attack
We might make us some popcorn
to eat while the monsters attack

The next day we might be tired
It might be a very long day
But you have to expect to be tired
After a big pajama party

2. Dream Song

When the moon is up
And the sun goes down
It's time to go to bed
And dream, dream, dream, dream

You're a baseball player
The crowd's shouting for you
They want you to hit it over the fence
And that's what you're gonna do

You're an astronaut in space
The sun and moon in your face
Many planets explored
You're curious for more

You're a firefighter on the scene
Of a fire that's tricky and mean
Throwing on the water spray
Crowd shouts, "You saved the day!"

You're a softball player
The crowd's shouting for you
They want you to hit it over the fence
And that's what you're gonna do

When the moon is up
And the sun goes down
It's time to go to bed
And dream, dream, dream, dream

3. Keep the Water in the Tub

O, what a day - dirt and fun
You skinned your knee with a run
Tears and sweat soak through
Hair is matted, smells, peeyou!

You lost your pet rock again
You skipped the yard with your friends
And now its time to go in
Wash away all that's been

Keep the water in the tub
Keep the water in the tub
Keep the water in the tub
Keep the water in the tub

I know you're under there beneath all that grime
Dinner, homework, brush your teeth, next bedtime
One more thing that I can think left to do
Don't you know that squeaky clean is just for you?

Find your ducky in the sink by the tub
He's your favorite company for a scrub
Splishy-splashy with a yellow rubber duck
Gonna help you wash away the mucky-muck

4. That's Not Nice

Johnny and Carol climbed into a barrel
Rolled down a hill and got out and laughed
Big Davey Pickle stole their vehicle
And left them to watch while he had blast

That's not nice,
That's not nice
No, no, no, no, no, no, no, no

SANDBOX *Are We There Yet?*

Michael and Hannah opened a banana
Split it for lunch and threw down the peel
A kid in a bonnet slipped and fell on it
And cried, "Oh man! Now how does that feel?"

Alex and Myrtle came upon a turtle
Strolling to a lake at a leisurely pace
Alex bent down, turned the turtle 'round
And left him lost, looking for his favorite place

Jacob and Miranda saw a baby panda
Sitting by himself all alone at the zoo
They sang him a song and the panda sang along
And lonely no more called out, "Thank you!"

*(And you know what, kids? That was pretty nice.
So this time we're gonna say, "That might be nice!")*

That might be nice, That might be nice
Yes, yes, yes, yes, yes, yes, yes!

5. Car Rides

Car Rides, on the way to get me home
Let me hear my song on the radio

Don't take my toys away
I won't act up anymore

Car rides are my favorite way from here to home
Let me hear my song on the radio

6. Ladybug

Ladybug, its time to get out, start your day
Ladybug, it's gonna be a happy day

You've got new people you can meet
You've got new places you can go
You've got your wings to get there fast
You've got your legs to get there slow

You've got a hundred different reasons
not to stay at home today
So Ladybug, come on outside and play

7. Jump Jump!

Jump, jump, turn around
Spin in a circle
Till you want to fall down

Lay down on the ground
Catch your breath
Till you want to jump around

Shake your body, baby, you can be proud
Jump around and show us how

Wave your arms around
Fly like a bird
Right off the ground

Stomp your foot down
Act like a monster
And stomp your feet down

Shake your body, baby, you can be proud
Stomp around and show us how

Tip-toe soft now
You're a little mouse
And you're eating your cheese

Sing real soft now
Listen to the words
Sing along if you please

Sing real loud now
Find a song
That you sing real proud now

Clap your hands now
Make a big noise
As we finish our song

8. Nautical Song

Do you know your left
From your right?
Then you can find your way
On our boat tonight

SANDBOX *Are We There Yet?*

Do you know your front
From your back?
Then you can find your way
On our boat tonight

Port is to the left
Starboard to the right
The bow is the front of the boat
The stern is what's behind

Let's set sail to the East
From America to Europe
Crossing the Atlantic Ocean
Looking for some surfing

Or we could sail South
Just past the isle of Cuba
Explore the Caribbean
With my friends and I looking

And everything's floating around
Everything's floating around

Let's set sail to the West
From LA to Hawaii
Crossing the Pacific
We can eat some mahi-mahi

Or visit Japan
And its big ol' neighbor China
Through the South China Sea
And out into Malaysia

And everything's floating around
Everything's floating around

9. Coconut Stew

Coconut, coconut, coconut, coconut stew
I say "Yum!" but my best friend says "Eww!!"

Peas and pickles in...
Add a little fish...
Crackers on the side...
Stir it up, it tastes delicious!

Coconut, coconut, coconut, coconut stew
I say "Yum!" but my best friend says "Eww!!"

10. Chromosome

Twenty-three pairs from Mom and Dad
Wrapped up in a cell
The smallest part of you
Don't you know it's true?

Chromosomes tell your body how to grow
Black, white, green, or blue
They make the you that's only you

Chromosome, chromosome
You are one of a kind, special and unique
Chromosome, chromosome
You are one of a kind, you are distinct

There will only be one of you
Unless of course you're a twin
And then there's two

There can only be two of me
Unless of course I'm a triplet
And then there's three

Chromosome, chromosome
You are one of a kind, special and unique
Chromosome, chromosome
You are one of a kind, you are distinct
(Unless they figure out cloning!)

11. The Circus

Late in September, a warm sunny day
the circus came to town
Two dozen tumblers, three elephants
and one daredevil clown

Oh what a life in the circus
Flying high on the trapeze
I can feed lions and horses
Everyone watching me

Bearded magicians, musicians on stilts
sang for all their worth
Eating my nachos, I had no doubt
no greater show on earth

SANDBOX *Are We There Yet?*

12. PB Jam

I know you like me to try new things
But brussel sprouts and squash are not my thing
And every night, something new appears on my
plate
My magic napkin helps the food escape

And I reserve this time to let you know
That given a choice
With two slices of bread
I'll always choose
My PB and jam

I know you're looking at three meals a day
But don't assume that I need variety.
Those crazy greens can stay upon my plate
I'll try them again so long as I can say

Don't hand me no bologna
I had it up to here with ham
Don't bother with the turkey
Save the cheese for Sam and Ben

13. Hot Dogs

Hot dogs, I like hot dogs
I would eat them all the time if I could
I like hot dogs

Ice cream, Frank likes ice cream
He would eat it all the time if he could
Frank likes ice cream

Corn, Ed likes his corn
Yes, he would eat it all the time if he could
Ed likes his corn

Roast beef, Chris likes roast beef
Yes, he would eat it all the time if he could
He likes roast beef

14. I Like To Win

I like to win, how about you?
I like to win, how about you?
But I only win half the time, so what can I do?

Sometimes I say, "Congratulations!"
Sometimes I say, "Better luck next time."
Good game, my friend!"

I don't like to lose, how about you?
I don't like to lose, how about you?
But I still lose half the time, so what can I do?

Sometimes I say "Congratulations!"
Sometimes I say, "Better luck next time."
Good game, my friend!
And so until then..."

15. Follow Me

Come on, my son, the school week is done
Pack a travel bag and follow me
My little girl, it's a great big world
Bring along our dog and follow me

We might not go where we once have been
We might meet new folks on the way
We might get tired only half way through
But that's OK

Let's pack the car, we won't go very far
Open up the door and follow me
No clouds in the sky, a trail for you and I
Grab the hiking map and follow me

It's a bright Saturday, let's go out and play
Button up your coat and follow me
Full day of sun, let's go and have some fun
Put your hand in mine and follow me
Yes, put your hand in mine and follow me

16. Bedbugs (Good Night)

Good night
Sleep tight
Don't let the bedbugs bite
Good night, good night, good night
